

# ROUND TABLE DISPLAYS

## STRIKING & FLEXIBLE MERCHANDISING PLATFORM

Innovative Plant Merchandising Equipment

### Flexible Round Display Tables

When used in nested clusters at different heights the Round tables offer a striking merchandising platform which encourages customer interaction and drives sales.

### Key Features

- ✓ Single large 40mm deep plastic tray which is incorporated into the moulded frame to ensure simplicity, durability and ease of cleaning while facilitating 'ebb and flow' watering options.
- ✓ New drainage channel from perimeter to centre outlet.
- ✓ These tables are ideally suited to stunning indoor displays on wooden or decorative floors as the water outlet can be controlled.
- ✓ Non-corrosive robust construction and materials enables them also to be used outdoors.
- ✓ Table legs clip easily and securely into the base frame and are available in 700mm, 550mm, 400mm and 250mm heights.
- ✓ Table legs are supplied with an end insert to protect soft floors

### Specifications

- ✓ Product Specifications
- ✓ Frame diameter: 1225mm
- ✓ Tray diameter: 1200mm. One piece, rotationally moulded recycled PVC.
- ✓ Facia: 80mm. Extruded aluminium. Optional pine or powder coated finish.
- ✓ Tray depth: 40mm
- ✓ Legs: Telescopic Legs adjust to the following heights: 700mm, 550mm, 400mm and 250mm

### Options & Variations

- ✓ 80mm braked wheels and height adjustable feet available. When using wheels on the longer legs a leg support kit is recommended.
- ✓ A leg support kit is available if required for the high leg position but for most plant retail applications this is not necessary.
- ✓ A Top Hat set is available to add height to your display. These hats are 750mm high with a 375 diameter and rise 150mm each. They can be used together or separately
